MongoDB | HTML5 | CSS3 |
JavaScript | Git | Tailwind CSS |
Postman | RESTful APIs |
Responsive Web Design | Solidity

SOFT SKILLS

Teamwork | Time Management |
Problem Solving

INTERESTS

- Playing Cricket
- Cooking

CERTIFICATIONS

- Internship certificate
- Full Stack Development Course Completion Certificate
- Construct Week Winner Certificate
- Certificate of Completion

Ravi Mishra

Full Stack Web Developer

PROFESSIONAL SUMMARY

I'm an experienced Full Stack Web Developer with expertise in the MERN stack and over 800 hours of hands-on coding. I specialize in building efficient server-side APIs with Node.js and Express.js, creating dynamic and intuitive frontend components using React.js and Next.js, and designing robust databases with MongoDB, including executing complex queries. I thrive in collaborative environments, enjoy tackling challenging problems, and pay close attention to the details that make projects stand out. Passionate about staying updated with the latest web development trends.

WORK EXPERIENCE

Pathnovo Solutions PVT. LTD.
Full Stack Developer | October 2024–present
Job responsibilities:

- Designed and built web applications using the MERN stack, aligning with project requirements for seamless frontend and backend integration.
- Developed responsive user interfaces with Next.js and TailwindCSS, enhancing the user experience across devices.
- Optimized and secured RESTful APIs and managed MongoDB databases for efficient data handling.
- Collaborated with cross-functional teams to ensure scalable, maintainable, and high-performance application deployments.

The Matrix Labs
Software Developer | June 2024 – September 2024
Job responsibilities:

- Designed and implemented user interfaces for DeepFake AI applications using React, focusing on creating engaging and dynamic animations.
- Developed frontend components for Zeno AI, leveraging technologies like Redux Toolkit, socket.io, and TypeScript for robust and interactive applications.
- Gained experience in blockchain technology by integrating smart contracts and decentralized application functionalities with tools like Ether.js and Solidity.
- Enhanced user experiences by optimizing UI/UX using TailwindCSS, DaisyUI, and other styling frameworks.

PROJECTS

1. StayBnB | ⊕ | ⊙
HTML5 | CSS3 | Responsive Web Design | React | TypeScript | json-server and json-server-auth | RESTful APIs | Redux

- Developed a responsive and dynamic website and Implemented a user authentication and build Admin dashboard for CRUD operations
- Created dynamic Checkout page and Implemented a booking/payment functionality .

2. Sunshine Digital Agency | ⊕ | ⊙
HTML5 | CSS3 | JavaScript | Git | Responsive Web Design

- Contributed to the development of the admin dashboard, service offerings section, and project section.
- Focused on creating a responsive design and improving the front-end user interface.
